**RAPA**   
INDUSTRY

**Metal replacement is in our DNA!**  
As a development and system supplier, we are your partner for innovative solutions made from thermoplastic materials. We are passionate about complex parts and components that require high temperature resistance and operational durability.

## OUR COMPETENCE

- 💡 **Metall replacement**
- 💡 **Fluid Engineering**
  - » Material expertise
  - » Test and validation
- 💡 **Injection moulding technologies**
- 💡 **Connection technology**
- 💡 **Sustainable production**

**YOUR EXPERTS IN  
PLASTIC TECHNOLOGY**

## YOUR BENEFIT

- 💡 Bundled competencies of valve & plastics specialists from a single source
- 💡 Cost savings by replacement of metal and function integration
- 💡 Simplified assembly thanks to tool-free interfaces
- 💡 Lightweight construction
- 💡 Reduced CO2 equivalent

Application examples: Heat pumps, flat stations, fresh water stations and valve assemblies.

RAPA Industry offers customized valve and fluid systems for various industries.

With decades of experience and a team of over 150 engineers, we deliver precise, efficient and reliable solutions from development to series production.

## OUR COMPETENCE

- 💡 **Valve technology**
- 💡 **Fluid management**
- 💡 **Product and process development**
- 💡 **Electronics development**
- 💡 **Software development**
- 💡 **Automated production in Germany, USA and China**
- 💡 **100% End of line inspection**

**YOUR EXPERTS IN  
VALVE TECHNOLOGY**
